## THE MODULAR VEHICLE BARRIER

This unique mobile barrier has been designed to protect crowds from ramming vehicles during gatherings or events. These barriers can withstand impact of a 7.5T truck travelling at 48 kmph. This unique design is patented and the effectiveness is duly certified.

Made up of compact elements that are easy to store and transport. It takes less than 3 minutes to assemble and install and does not require any special tools. It also has a long service life and requires minimal maintenance.

## CHARACTERISTICS

Thanks to its quick and easy assembly, the Modular Vehicle Barrier adapts to all surfaces and terrains (including sidewalks and other gradients).

It can be moved very quickly, in order to clear the way for priority vehicles (ambulances, fire trucks, etc.).
